

The Sci-fi Movie Forum was amongst the popular events that returned this year with more buzz! Two titles with serious and interesting discussion points were screened to a cinema packed with Secondary and JC students. Our impressive line-up of panelist inspired the students with their views and knowledge on the subjects discussed in the movie, *The Island* and the documentary *An Inconvenient Truth*.

More than 1000 students benefited from the sessions which provides an avenue for our young to correct some of the misconception or inaccurate views that may have from watching the movies.

Students were fielding questions after questions at the 1 hour forum

Panel discussion for The Island screened on 29 August 2007

From left: **Mr Dave Chua** (Facilitator), **Asst. Professor Rupert Charles Wilmouth** (School of Biological Sciences, NTU), **Dr Low Hwee Boon** (Institute for Infocomm Research, A*STAR), **Mr Lim Yeow Kee** (Advisor, Singapore Institute of Aerospace Engineers), **Ms Kamaria Ghani** (Asst. Director, Science Upstream, Singapore Science Centre)

Asst. Prof Wilmouth taking some of the questions from the audience.
